MESSAGE FROM THE PRESIDENT

We will lead a creative territorial policy which will open a new era of happiness of the people.

Founded in 1978, Korea Research Institute for Human Settlements (KRIHS) has made significant contributions to policies in national territorial planning, regional planning, urban planning, real estate, transport and infrastructure, and the urban environment.

KRIHS is committed to conducting high-quality policy-oriented research through which to promote economic development and to enhance the welfare of people.

National territory represents the space for production, consumption, recreational activities, and social interaction, which directly affect the quality of life and the competitiveness of business firms and regions.

As Korea passes the phase of rapid growth and enters a mature stage of stable development, the happiness of people is becoming an essential social value. It is in this context that KRIHS has set the goal of pursuing research that can help improve the quality of life, create decent jobs, and realize the creative economy. We also aim at strengthening our efforts to communicate our research outcomes to the public.

KRIHS is staffed with experts in various subjects of human settlements with rich experiences. It has also accumulated valuable data and information in these subject areas. As such, it is uniquely positioned to conduct cross-cutting research by engaging relevant in-house experts. Equipped with a strong sense of responsibility and shared vision, our staff is dedicated to interdisciplinary and collaborative research to maximize our potential. We also plan to expand and strengthen our network with domestic and overseas partners and to share our knowledge and experience with other countries.

We look forward to serving our nation and the international community. Thank you.

Kim Dongju

President, Korea Research Institute for Human Settlements

Dongju Kim

Education

- Ph.D. in Regional Science, University of Pennsylvania, USA (1991)

Major Experience

- President, Korea Research Institute for Human Settlements (2015. 6. ~ Present)
- Member, Presidential Committee on Regional Development (2013. 6. ~ Present)
- Member, Multifunctional Administrative City Construction Commission of the Ministry of Land, Infrastructure and Transport (2014. 7. ~ Present)
- Member, Central Committee on Preservation and Promotion of Ancient Cities of the Cultural Heritage Administration of Korea (2013. 11. ~ Present)
- Executive Director, Korea Planning Association (2015. 2. ~ Present)
- Vice President, Korea Research Institute for Human Settlements (2014. 1. ~ 2015. 6.)
- President, Korean Regional Science Association (2013. 1. ~ 2013. 12.)
- Member, Central Urban Planning Commission of the Ministry of Land, Infrastructure and Transport (2010. 4. ~ 2014. 12.)

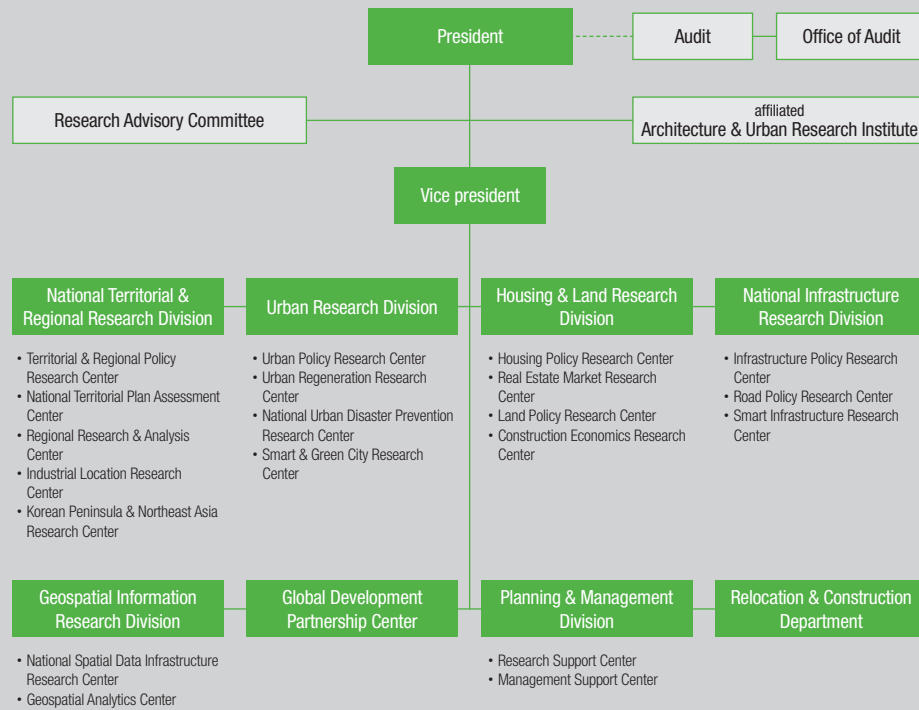

PURPOSE

The Korea Research Institute for Human Settlements (KRIHS) was established in 1978 in order to contribute to the balanced development of national territory and the improvement of the quality of life of people by conducting comprehensive policy-oriented research in the efficient use, development, and conservation of territorial resources.

Since its inception, KRIHS has been committed to fulfilling its mission of the creation of a beautiful territory and pleasant living environment. In order to achieve this mission, KRIHS has carried out various studies on sustainable territorial development, balancing development and conservation, and the provision of housing and infrastructure.

HISTORY
TIMELINE

1970's

- 78. 4. 17. The KRIHS Establishment Plan approved by the President of the Republic of Korea
- 78. 9. 13. Inauguration of the 1st president, Roh Yoonghee
- 78. 10. 4. Establishment of KRIHS by the President of Korea
- 78. 12. 5. Enactment of the KRIHS Promotion Act (No. 3140)

1980's

- 81. 6. 1. The Regional Development Institute (attached to the Korea Advanced Institute of Science and Technology) merged into KRIHS
- 81.12. 5. Inauguration of the 2nd president, Kim Uiwon
- 82.12. 7. *The Korea Spatial Planning Review* was launched
- 83. 7. 1. KRIHS monthly magazine, *Planning and Policy* was launched
- 84.12. 5. Inauguration of the 3rd president, Hwang Myungchan
- 88. 8. 9. Inauguration of the 4th president, Huh Jaeyoung

1990's

- 92. 5. 9. Awarded the President's commendation for the 3rd National Territorial Development Plan
- 93. 3. 30. Inauguration of the 5th president, Lee Sangyong
- 93. 9. 7. Inauguration of the 6th president, Lee Kunyoung
- 94. 4. 27. Relocated to the newly completed KRIHS Pyeongchon building in Anyang-si
- 97. 3. 26. Inauguration of the 7th president, Ryu Sangyoul
- 97. 7. 29. Inauguration of the 8th president, Hong Chul
- 99. 1. 29. Placed under the supervision of the Korea Council of Economic and Social Research Institutes of the Office of the Prime Minister in accordance with the "Act on the Establishment, Management, and Promotion of Government-Sponsored Research Institutes"
- 99. 12. 6. Inauguration of the 9th president, Lee Jungsik

2000's

- 02. 12. 6. Inauguration of the 10th president, Lee Kyubang
- 02. 5. 10. Selected as Best Research Institute of 2001 by the National Research Council for Economics, Humanities and

Social Sciences

- 05. 5. 26. Awarded the "Best Institute" of 2004 by the National Research Council for Economics, Humanities and Social Sciences for two consecutive years
- 05. 12. 6. Inauguration of the 11th president, Choe Byeongsun
- 06. 5. 2. Ranked 3rd in the 2005 Evaluation of Public Institutions by the National Research Council for Economics, Humanities and Social Sciences
- 06. 7. 10. First place in the Evaluation of Public Institutions for Innovation by the Planning and Budget Ministry among the 23 research institutes under the National Research Council for Economics, Humanities and Social Sciences
- 06. 12. 6. First place in the Customer Satisfaction Survey by the Prime Minister's Office for two consecutive years
- 07. 6. 15. KRIHS-affiliated Architecture and Urban Research Institute (AURI) inaugurated
- 08. 4. 7. Selected as the "Excellent Institute" in the 2007 Evaluation of Public Institutions by the National Research Council for Economics, Humanities and Social Sciences
- 08. 4. 7. First place in the Customer Satisfaction Survey by the Prime Minister's Office
- 08. 6. 18. Inauguration of 12th president, Park Yangho
- 08. 10. 1. KRIHS 30th Anniversary celebrated and new KRIHS C.I announced
- 09. 5. 8. Awarded the "Best Research Institute" by the National Research Council for Economic, Humanities, and Social Sciences

2010's

- 10. 2. 10. Received the 2009 Prime Minister's commendation
- 10.12. 30. Established the Global Development Partnership Center (GDPC)
- 10.12. 30. Launched EAROPH Korea secretariat
- 11. 6. 18. Inauguration of 13th president, Park Yangho
- 11.12. 14. First place in the 2011 Integrity Rating of the Public Sector Organizations
- 13. 8. 19. Inauguration of 14th president, Kim Kyung-Hwan
- 15. 6. 30. Inauguration of 15th president, Kim Dongju

Research on National Territorial Policy

KRIHS is a leading research institute of national territory policy committed to enhancing the well-being of the people. With the efforts of our excellent professionals, we have played a crucial role in formulating innovative territorial policies by producing research outputs in various subject areas that are reliable, practical, and widely used, and communicated effectively to the government.

NATIONAL TERRITORIAL & REGIONAL RESEARCH DIVISION

The National Territorial & Regional Research Division conducts research related to short- and long-term territorial and regional development policy and planning, including national & regional policy studies, National Territorial Plan Assessment, regional economic analysis, industrial location research, environment and water resources studies, the Korean Peninsula & Northeast Asia research.

Main research agenda includes: national & regional planning and policy, capital region planning & policy, environment and water resource planning; national territorial plan assessment, national planning system, territorial monitoring and projection; regional economic analysis, spatial econometric analysis, economic analysis of development projects; industrial location analysis, policy and planning, demand analysis for industrial sites; regional planning of unified Korean Peninsula and North Korea, development strategy for Northeast Asia, and border area development planning.

Territorial & Regional Policy Research Center

national and regional planning | national and regional policy | capital region planning and policy | environment and water resources planning | other studies with regard to national Territorial and regional policy

Lee Yongwoo Senior Research Fellow, Managing Director of the Territorial & Regional Policy Research Center, Director of the National Territorial & Regional Research Division, **Suh Taesung** Senior Research Fellow, **Lee Dongwoo** Senior Research Fellow, **Lee Wonsup** Senior Research Fellow, **Kim Gwangik** Research Fellow, **Moon Jeongho** Research Fellow, **Cha Misook** Research Fellow, **Park Taesun** Research Fellow, **Lee Soonja** Research Fellow, **Kim Jinbeom** Associate Research Fellow, **Park Kyunghyun** Associate Research Fellow, **Han Woosuk** Associate Research Fellow, **Chang Eungyo** Associate Research Fellow, **Jeong Wooseong** Associate Research Fellow, **Kim David** Assistant Research Fellow

National Territorial Plan Assessment Center

national territorial plan assessment | national planning system | territorial monitoring and projection | other studies with regard to national territorial planning and assessment

Kwon Youngsub Senior Research Fellow, Managing Director of the National Territorial Plan Assessment Center, **Kim Sunhee** Senior Research Fellow, **Yang Jinhong** Research Fellow, **Min Seonghee** Associate Research Fellow, **Lim Jiyoung** Assistant Research Fellow

Regional Research & Analysis Center

regional economic analysis | spatial econometric analysis | economic analysis of development projects | other studies with regard to regional economy

Ahn Hongki Research Fellow, Managing Director of the Regional Research & Analysis Center, **Byun Pillsung** Research Fellow, **Lee Meeyoung** Associate Research Fellow, **Kim Donghan** Associate Research Fellow, **Ha Soojung** Associate Research Fellow, **Nam Kichan** Associate Research Fellow, **Hong Saheum** Associate Research Fellow

Industrial Location Research Center

industrial location analysis | policy and planning | demand analysis for industrial sites | other studies with regard to industrial location

Chang Cheolsoo Senior Research Fellow, Managing Director of the Industrial Location Research Center, **Ryu Seunghan** Research Fellow, **Kang Hoje** Research Fellow, **Seo Yeonmi** Associate Research Fellow, **Park Jeongil** Associate Research Fellow, **Lee Yunsuk** Assistant Research Fellow

Korean Peninsula & Northeast Asia Research Center

regional planning of unified Korean Peninsula and North Korea | development strategy for Northeast Asia | and border area development planning | other studies with regard to the Korean Peninsula and Northeast Asia

Lee Sangjun Senior Research Fellow, Managing Director of the Korean Peninsula & Northeast Asia Research Center, **Kim Cheonkyu** Research Fellow, **Lee Hyunju** Associate Research Fellow

RESEARCH PERFORMANCE

- Future Prospects and Strategies for National Territorial Development (III)
- Method Development and Application for Sustainable National Territorial Planning
- Facilitating Regional Collaboration for the Success of the HOPE Area Project
- A Study on the Effective Provision of Cultural Services for the HOPE Area's Residents
- Spatial Characteristics of Core City-Regions and Policy Implication
- A Study on the Examination and Application of the Regional Resilience for Sustainable Development
- A Study on Diagnosis and Continuous Growth Measures of Industrial Cities
- Mixed-use Development of Industrial Complexes by Strengthening Innovation and Living Environments
- Policy Directions for the Supply of Public Facilities in Depopulated Areas of Korea
- A Study on the Causes of Excess Demand Prediction and Its Improvement Measure for Regional Development Projects
- The Use of Spatial Big Data for Planning Policy Support
- Development and Application of an Agent Based Urban Simulation Model
- A Study on Indicators Development and Investment Direction for Life Oriented Water Resources Policy
- A Study on Urban Development Models and Implementation Strategies for Selective North Korean Cities
- A Study on Comparing Institute on Spatial Planning of North and South Korea and Policy Issues
- The Strategic Suggestions on Cross-Border Cooperation Projects in the Tumen Region

URBAN RESEARCH DIVISION

The Urban Research Division conducts policy research to enhance urban vitality and improve urban infrastructure and living environment for sustainable urban development to help establish safe and comfortable living environment and high quality of life. The Division leads the research in these areas through collaboration with policy and research institutions at home and abroad.

Major research areas include urban planning and design for both rich and convenient urban settlement and infrastructure, healthy cities, urban culture and tourism; urban regeneration and development for enhance dynamism and competitiveness of the cities and the nation as a whole; urban disaster prevention to mitigate the impacts of climate change and natural disasters; studies toward smart and green cities which incorporate ICT and are environment friendly; and other urban policy issues directly related to citizens quality of life.

Urban Policy Research Center

urban policy | urban planning, design and development | urban regional planning and policy | urban culture and tourism | other studies with regard to urban policy

Kim Taehwan Senior Research Fellow, Managing Director of the Urban Policy Research Center, Director of the Urban Research Division, Park Eungwan Research Fellow, Kim Sangjo Research Fellow, Cho Panki Research Fellow, Kim Eunnam Associate Research Fellow, Kim Jungeun Associate Research Fellow, Lim Sangyon Associate Research Fellow, Kim Dongkun Associate Research Fellow, Seo Minho Associate Research Fellow, Lee Syunguk Associate Research Fellow, Kim Soojin Associate Research Fellow, Song Jieun Assistant Research Fellow

Urban Regeneration Research Center

urban regeneration policy | urban regeneration systems and techniques | urban regeneration performance assessment and monitoring | other studies with regard to urban regeneration

Lee Wanggeun Senior Research Fellow, Managing Director of the Urban Regeneration Research Center, Yoo Jaeyoon Senior Research Fellow, Park Sehoon Research Fellow, Park Jungeun Associate Research Fellow, Jung Soyang Associate Research Fellow, Park Soyoung Associate Research Fellow, Koo Hyeongsu Associate Research Fellow, Bae Yujin Assistant Research Fellow

National Urban Disaster Prevention Research Center

national urban disaster prevention policy | urban climate change disaster predictions and response | urban planning and policy to build safe city | other studies with regard to urban disaster prevention

Kim Myoungsoo Research Fellow, Managing Director of the National Urban Disaster Prevention Research Center, Kim Changhyun Research Fellow, Lee Byoungjae Associate Research Fellow, Lee Sangeun Associate Research Fellow, Cha Eunhye Assistant Research Fellow

Smart & Green City Research Center

smart & green city planning and policy | other studies with regard to smart & green city

Lee Jaeyong Research Fellow, Managing Director of the Smart & Green City Research Center, Wang Kwangik Research Fellow, Kim Seongsoo Associate Research Fellow, Lee Bumhyun Associate Research Fellow, Park Jongsoon Associate Research Fellow, Park Chan Associate Research Fellow

RESEARCH PERFORMANCE

- Promoting Private Sector's Participation for Urban Regeneration
- Rebuilding Intermediary Organizations for Urban Regeneration in Korea: A Government-Civil Society Relation Perspective
- Urban Regeneration and the Location Characteristics of Creative Industries and Classes
- Improvements of Development System for Non-urban Area Addressing the Change of Urban Planning Regulation System
- Urban Master Plan in the Age of Slow Population Growth
- A Study on the Improvement Semi-industrial Zone
- A Study on the Making Healthy Cities in the Era of Wellbeing (II)
- Supporting Platform for the Analysis of Climate Change Driven Disaster Vulnerability in Urban Area
- The Study for Developing of Flood Analysis Approach Considering Territory Changes
- A Study on the Best Practices and Policy Agenda for Environment-Friendly Energy Towns
- Research on the U-City Strategic Plan Concerning with Government 3.0 and the U-City Pilot Project Management Plan
- Existing U-City Advancement Method Research

HOUSING & LAND RESEARCH DIVISION

The Housing & Land Research Division conducts national-level policy research to respond the demands of policy makers and to lead the development of housing and land policy. The main research areas include real estate market analysis, formulation of real estate policies, analysis of policy effects, establishment of a comprehensive housing plan, national housing survey, evaluation of housing welfare policies, development and evaluation of land use system, management and development of land policies, evaluation of construction economy, public and private investment, and establishment of related laws and institutions.

Housing Policy Research Center

national housing policy | housing supply and demand | residential conditions | housing welfare policy | other studies with regard to housing policy

Chun Hyeonsook Research Fellow, Managing Director of the Housing Policy Research Center, Director of the Housing & Land Research Division, Kim Geunyoung Senior Research Fellow, Kim Hyeoseung Research Fellow, Lee Yunsang Associate Research Fellow

Real Estate Market Research Center

real estate market model development and trend analysis | real estate finance and tax | real estate policy development and effectiveness | other studies with regard to real estate market

Park Chungyu Research Fellow, Managing Director of the Real Estate Market Research Center, Lee Soowook Senior Research Fellow, Kim Minchul Associate Research Fellow, Byeon Sehil Associate Research Fellow, Jeon Sungje Associate Research Fellow, I Taly Associate Research Fellow

Land Policy Research Center

national land policy | land development, planning and use | other studies with regard to land policy

Lee Hyungchan Associate Research Fellow, Managing Director of the Land Policy Research Center, Jung Heenam Senior Research Fellow, Choi Hyeokjae Research Fellow, Choi Soo Research Fellow, Kim Seungjong Associate Research Fellow, Park Joon Associate Research Fellow

Construction Economics Research Center

construction industrial and economic policy | construction market analysis and policy | public and private investment | other studies with regard to construction economy

Kim Sungil Research Fellow, Managing Director of the Construction Economics Research Center, Yoon Hajung Research Fellow, Lee Seungbok Research Fellow, Jo Jincheol Research Fellow, Cho Junghee Assistant Research Fellow

**RESEARCH
PERFORMANCE**

- A Study on the Housing Welfare Indices
- A Study on Customized Policy Measures Addressing Low-income Households' Rent Burden Responding to Rental Market Change
- A Study on Method of Estimating Housing Costs according to Social and Economical Changes
- A Study on Housing Survey and Housing Policy for Multi-cultural Households in Rural Area
- Microdynamic Analysis and Policy Simulation Model on Real Estate Market on Korea (II)
- A Study on the Development of Residential Neighborhood Regeneration Effect Analysis System (II)
- An Analysis on Economic Impacts of Changes in Property Tax
- Developments in Financial System and Challenges for the Housing Sector
- A Study on the Housing Market and the Monetary Policy Transmission Mechanism in Korea
- Economic Impacts of the Real Estate Industry and Policy Tasks for Promoting the Industry
- A Study on Establishing the Policy for Public Land Supply System in Post-Developmental Era
- The Eradication of Unfair Practice in Public Construction Project
- A Study on Ways to Improve Construction Safety Management for a Safer Society
- A Study on Establishment of the Cooperative Business Ecosystem in Construction Industry

NATIONAL INFRASTRUCTURE RESEARCH DIVISION

The National Infrastructure Research Division aims to guide transportation infrastructure policies that are responsive to the challenges of climate change and global competition. It spearheads the formulation of key transportation policies and plans at the national, regional and city levels, including the national road and railroad network plans, metropolitan transportation policies, national logistics policies and plans, and green transportation policies that promote public transportation.

Major research areas include the formulation of transportation policies to support national and regional development; medium- and long-term investment plans focusing on intermodal transportation systems; transportation corridor development considering the spatial structure of the national territory; primary road and railroad network planning; international logistics and transportation planning related to the development of the Korean Peninsula and Northeast Asia; green logistics policies; and standardization of intelligent transport systems (ITS).

Infrastructure Policy Research Center

national infrastructure policy | Integrated land use and transportation planning | public and green transportation | railroad network and Logistics | other infrastructure related studies

Lee Sangkeon Senior Research Fellow, Managing Director of the Infrastructure Policy Research Center, Director of the National Infrastructure Research Division, **Cho Namgeon** Senior Research Fellow, **Kim Heungsuk** Research Fellow, **Chung Jinkyu** Research Fellow, **Lim Youngtae** Research Fellow

Road Policy Research Center

national road policy | road project planning and evaluation | comprehensive provincial road planning and evaluation | other road policies related studies

Ko Yongseok Research Fellow, Managing Director of the Road Policy Research Center, **Yi Choonyong** Senior Research Fellow, **Kim Hojeung** Senior Research Fellow, **Kim Jonghak** Research Fellow, **Kim Joonki** Research Fellow, **Kim Hyeran** Associate Research Fellow, **Yoon Seoyoun** Associate Research Fellow, **Bae Yunkyoung** Associate Research Fellow, **Yook Donghyung** Associate Research Fellow, **Kim Sangrok** Assistant Research Fellow

Smart Infrastructure Research Center

intelligent transport systems | big data and information analysis for transportation | other smart infrastructure related studies

Oh Sungho Research Fellow, Managing Director of the Smart Infrastructure Research Center, **Lee Backjin** Research Fellow, **Kim Kwangho** Associate Research Fellow, **Park Jongil** Assistant Research Fellow

RESEARCH PERFORMANCE

- Safe Environment against Traffic Accidents
- The Application of Smart Cell in Space Policy
- Policy Directions for Improvement of Metropolitan Transportation Governance: Focusing on Network-type Metropolitan Areas
- Study on Implementation Plan for Eurasia Integrated Logistics Network (Road and Airway Sectors)
- Study on Mid- and Long-term Plan Establishment for National Highways (Phase I, II)
- Impact Evaluation and Market Analysis for the ITS Industry Promotion
- Direction of Transportation Policies Corresponding to the Megatrends
- Development and Application of Activity-based Simulation Models for Promotion of Transportation Policy Effectiveness (II)
- The Study of Arterial Railway Network on Cambodia, Lao PDR, Myanmar, Vietnam and Thailand

GEOSPATIAL INFORMATION RESEARCH DIVISION

The Geospatial Information Research Division investigates methods, technologies, and policies through which geospatial information of the Korea territory can be produced, analyzed, and utilized in an efficient manner.

Major research areas of this division are the policies of national spatial data infrastructures (NSDI), strategies for the development of local geospatial information systems, medium- and long-term plans for the national geospatial information system, and analysis of geospatial information industries and market changes. The Division is also pursuing the development or improvement of methods for collecting, producing, and analyzing geospatial information, fusion of ICT technologies with geospatial information, techniques for geospatial analysis and modeling, remote sensing methods, the Korea Planning Support System (KOPSS), spatial big data, and dynamic temporal spatial data system.

National Spatial Data Infrastructure Research Center

national geospatial information infrastructure policies | geospatial information policies of local governments | policies of intelligent geospatial services | other policy studies of geospatial information

Sakong Hosang Senior Research Fellow, Managing Director of the National Spatial Data Infrastructure Research Center, Director of the Geospatial Information Research Division, **Park Jongtaek** Research Fellow, **Han Sheonhee** Research Fellow, **Kim Mijeong** Research Fellow, **Cho Chunman** Associate Research Fellow, **Kang Haekyong** Associate Research Fellow

Geospatial Analytics Center

analysis and convergence of geospatial information | Korea Planning Support Systems (KOPSS) | Spatial big data, satellite and remote sensing technologies | other studies of geospatial information analysis

Im Eunsun Research Fellow, Managing Director of the Geospatial Analytics Center, **Chung Moonsub** Research Fellow, **Kim Daejong** Research Fellow, **Lee Youngjoo** Research Fellow, **Hwang Myunghwa** Associate Research Fellow, **Kang Minjo** Associate Research Fellow, **Lim Yongho** Assistant Research Fellow

RESEARCH PERFORMANCE

- General Adjustment and Policy Development of Public Businesses Related to Spatial Information
- Development of Educational Programs for the Growth of Talented Manpower in Spatial Information Technologies
- Analysis of Trends and Strategies for Open Spatial Data in Developed Countries
- Development and Utilization of Spatial Knowledge Platform for Scientific Territorial Planning
- Development of Open Source Technologies for the Increased Use of Geospatial Software Programs
- Development and Application of a Model for Integrating Geographical and Statistical Information
- Spatiotemporal Analysis of Unstructured Big Data for Public Opinion Monitoring
- Information Strategic Planning (ISP) for Vietnam Multipurpose Land Information System

Global Partnership

KRIHS has strengthened its efforts to share Korea's knowledge and successful experience in national territorial development with developing and emerging countries. Having established the Global Development Partnership Center (GDPC) in 2010, we aim to contribute to shared prosperity of the world through education, research, consulting, and planning.

NATIONAL TERRITORIAL POLICY SUPPORT & CONSULTING FOR DEVELOPING COUNTRIES

GLOBAL DEVELOPMENT PARTNERSHIP CENTER

The Global Development Partnership Center provides education, consulting, and planning support to developing countries based on KRIHS's 37 years of experiences and know-hows in national territorial development. To offer more effective support, the center works closely with international agencies such as the World Bank and the Asian Development Bank. It is expanding the partnership in academic and policy exchanges to prestigious international research institutes and universities. Through its global network, the center continues to enhance its capacity for international collaboration.

Its education programs aim to share knowledge, information, and experience with public officials from developing countries. Consulting for developing countries is also provided to central or local governments in developing nations, and is focused on policies and plans for urban development, housing, and infrastructure. Furthermore, the center holds the Global Development Partnership Forum every month with domestic and foreign experts in overseas development and cooperation, serving as a bridge between the government and private enterprises.

RESEARCH STAFF

Chung Ilho Senior Research Fellow, Managing Director of the Global Development Partnership Center,
Park Miseon Associate Research Fellow, **Song Haseung** Associate Research Fellow,
You Heeyoun Assistant Research Fellow

CAPACITY BUILDING PROGRAMS FOR OFFICIALS FROM DEVELOPING COUNTRIES

The Programs run by the GDPC are:

- research-based programs that combine training and consulting;
- customized to meet the specific needs of participants from developing countries;
- assessed of their effectiveness after they are completed;
- interactive, involving participants actively; and
- creating more effective educational materials reflecting the participants' needs.

Participants around the world

CONSULTING FOR GOVERNMENTS OF DEVELOPING COUNTRIES

Overseas consulting projects are designed to help central and local governments of developing countries establish plans and policies for the development of national territory, regions, cities, and transportation. KRIHS has made continued efforts to create a pool of experts and contents for consulting, and adopted step-by-step strategies to produce more beneficial results. Consulting projects include projects combining development consulting and research, in the form of the KRIHS knowledge sharing program and projects contracted by international entities, and projects combining policy consulting and short-term training on various themes designed to meet the specific needs of developing countries.

GLOBAL PARTNERSHIP INTERNATIONAL COOPERATION

KRIHS is leading the way in creating a global knowledge network by forging close relationships with universities and research institutions. Through the networks, KRIHS has been able to exchange information and knowledge with experts all around the world and improving the quality of its research. KRIHS holds international seminars and conferences in cooperation with institutions of developed countries and international organizations, facilitating the global exchange of knowledge in national territorial research and policy. These events offer a forum for experts from various countries, including scholars and government officials, to share ideas on territorial development and policy and other issues. It has been participating in the World Bank's Urbanization Knowledge Platform as a key partner, and successfully hosted the EAROPH 2012 World Congress in Korea. In addition, KRIHS has strengthened research cooperation with the OECD and the World Bank, and engaged in various global activities in close collaboration with the United Nations Development Programme, Inter-American Development Bank, Asian Development Bank, and KOICA.

ACADEMIC EXCHANGE

KRIHS holds international seminars and conferences in cooperation with institutions of developed countries and international organizations, facilitating the global exchange of knowledge in national territorial research and policy. During the events, experts from various countries, including scholars and government officials, come together to share ideas on issues such as territorial development and policy.

RECENT CONFERENCES AND SYMPOSIA BY KRIHS

Date	Title
Sep. 16, 2015	International Conference on Geospatial Information Science 2015
Jan. 16, 2015	KRIHS-Columbia University Joint Workshop for Urban Regeneration
Nov. 9, 2014	International Forum on Sustainable Development in Guangzhou City of China
Nov. 4, 2014	KRIHS Reverse Mortgage Forum
Oct. 7, 2014	Spatial Policy Challenges: Responding to Population Aging and Housing Welfare Needs
Aug. 26, 2014	International Conference on Geospatial Information Science
Apr. 28~May 1, 2014	Global Lab on Metropolitan Strategic Planning : Seoul Global Exchange
Nov. 7, 2013	SCAG-KRIHS Joint Workshop 'Sustainable City Development'
Sep. 25~26, 2013	Cultural Strategies and Urban Regeneration: Policy Innovations from the Grassroots in East Asia
Aug. 22, 2013	KRIHS-INRS Seminar for Sharing Knowledge Urban Planning
Jun. 18, 2013	WB-KRIHS Joint Workshop to Promote the City Development Cooperation in Asia Region
May. 13, 2013	2013 Korea-China International Seminar on National Territorial Policies
Oct. 16~19, 2012	WB-KRIHS UKP South Asia Regional Workshop
Oct. 11~12, 2012	ICK-TEK 2012
Sep. 25~27, 2012	The 21st Korean-Japan Joint Workshop on the Construction Economy
Sep. 12, 2012	The 1st KRIHS-WB Regular Workshop
Jun. 29, 2012	OECD-KRIHS Seminar on Urban Regeneration & Compact City
May. 22, 2012	The Seminar on Land Policy of China and Korea in 2012: Policies and Tasks for the Balanced Development of the National Territory
Apr. 27, 2012	The Launching of OECD Urban Policy Reviews, Korea 2012

Sound Research Community

KRIHS intends to build a sound research community
in which the members can enjoy their work and feel a sense of achievement.
In this community, the visions of KRIHS will be realized
and quality research outcomes will be produced
through the active participation and cooperation of its members.

People-Oriented Organizational Culture

Based on the four core values of KRIHS - participation, respect, positive attitude, and sharing - we are making concerted efforts to build a sound research community.

FAMILY-FRIENDLY WORKPLACE

KRIHS makes efforts to become a family-friendly workplace. We communicate with the families of employees by sharing news and events of KRIHS, and hold various events where the employees and families can gather together and get to know each other better.

CONTRIBUTION TO THE COMMUNITY

As a public sector research institute, KRIHS tries to fulfill its social responsibilities in a variety of ways. KRIHS has been engaged in voluntary services in the local community. With its continuous participation in voluntary works, KRIHS won the governance award at the 18th National Volunteer Service Festival.

BOOK CLUB

At KRIHS, book club meetings are held frequently - more than 50 times a year. These meetings motivate the participants to read more books and further develop and share their ideas. They contribute to the creation of an inspiring atmosphere for the research community.

“LOVE OUR NATIONAL TERRITORY” WRITING CONTEST FOR ELEMENTARY SCHOOL STUDENTS

The annual Love Our National Territory Writing Contest for Elementary School Students is intended to help young students appreciate the importance of the national territory and environmental preservation. The prize-winning essays are published every year in a book.

Schools that win the team prize are given the chance to participate in the cross-country excursion tour, a program aimed at helping young students learn more about the nation's territory.

KRIHS believes that effective communication with the younger generation is essential for sustainable development and management of our national territory. In an attempt to help the nation's youth better understand and cherish the value of the national territory, KRIHS holds annual contests for elementary, middle, and high school students on the themes related to the national territory.

THE “NATIONAL TERRITORY OLYMPIAD”

The National Territory Olympiad for middle school students has been held since June of 2011. It intends to help students develop systematic thinking, creativity, and a sense of attachment to the nation through the study of the national territory.

THE “NATIONAL GEOGRAPHY OLYMPIAD”

The National Geography Olympiad for high school students began in 2000 with an aim to popularize geography among the public. From a long-term perspective, it expects to serve as a means to nurture young talent who will have a better understanding of the international community and the ability to solve the problems facing Korea and the world.

the Next Generation**

Publications

Space & Environment

Space & Environment, first published on April 30, 1993, is a quarterly English magazine intended to disseminate research outputs and international activities of KRIHS.

KRIHS Special Report Series

KRIHS Special Report Series, an English digest of KRIHS research reports, is intended to help interested scholars and policy makers outside Korea better understand key urban and regional issues in Korea.

The Korea Spatial Planning Review

The Korea Spatial Planning Review, published quarterly in Korean, features academic papers by scholars and professionals in related fields as well as by KRIHS research staff.

Planning and Policy

Planning and Policy, published monthly in Korean, contains articles and up-to-date information on spatial planning.

National Territorial Policy Brief

National Territorial Policy Brief, published weekly in Korean, offers a brief report that helps establish government policies. The report contains policy suggestions and measures as well as the background of the policies.
